**Subject:** Hearing schedule for reactors

Dear Commissioners:

Citizens for Nuclear Technology Awareness (CNTA) strongly support conducting hearings in October on the SCE&G application for two new reactors in Fairfield County. We call upon the commission to reject the request to delay the hearings until January. Although the request to delay was ostensibly made to provide "more time" to review the application, we submit that there is ample time for anyone truly interested in understanding the application to review prior to October. We support an informed citizenry having the opportunity to weigh in on such applications, but we do not support delaying tactics whose effect is to impede the provision of safe, clean, abundant energy through the nuclear option.

Respectfully,  
Clinton R. Wolfe  
Executive Director CNTA
